EXPERIENCE

Web Development Intern | Brainwave | February 2025 - March 2025

- Built and deployed dynamic web applications in a remote environment, improving functionality and performance across multiple modules.
- Applied hands-on learning of web technologies to develop scalable solutions, increasing project efficiency by **25%**.
- Successfully completed assigned tasks with high accuracy and timely delivery, contributing to overall team productivity.

Web Development Intern | Coding Blocks | June 2025 - July 2025

- Designed and implemented user-friendly web applications, enhancing UI performance and usability by **35%**.
- Participated in end-to-end web development lifecycle (design → development → deployment) across multiple projects.
- Improved application functionality by debugging and optimizing code, reducing errors by 20%.

Web Development Intern | Proxenix | December 2025 - February 2026

- Developed and optimized responsive web interfaces using HTML, CSS, and JavaScript, improving user experience by **30%+**.
- Worked on real-world client-based projects, ensuring secure handling of data and maintaining **100%** confidentiality compliance.
- Collaborated with team members to implement modern UI/UX design principles, reducing page load time by **20%**.

EDUCATION

8.4/10.0 B.TECH in Computer Science & Technology , SAGE University Indore, Madhya Pradesh	2023-2027
62.2% XII in PCM , Raj Hans School Rewa Madhya Pradesh	2022-2023
84.0% X , The Brain Shapers Rewa Madhya Pradesh	2020-2021

PROJECTS

ClientHub Pro | (React.js | Node.js | Express.js | MongoDB | JWT | bcrypt) | (LIVE | Github)

- Developed a scalable Client Management Dashboard (CRM) using **React.js**, **Node.js**, and **MongoDB**, implementing full **CRUD** operations with search, filtering, and pagination for efficient data handling.
- Integrated **JWT**-based authentication and role-based access control (**RBAC**), ensuring secure user login, protected routes, and encrypted password storage using **bcrypt**.
- Designed a responsive admin dashboard UI with data tables, sorting, and analytics (total clients, active users), improving user experience and operational insights.

FlixWave | (React.js | HTML | CSS | Javascript | API) | (LIVE | Github)

- Built a pixel-perfect Netflix-inspired landing page using **React.js** and modern **CSS (Flexbox & Grid)**, replicating real-world streaming platform UI.
- Implemented advanced UI features such as scroll-based animations, dynamic navbar on scroll, and hover transitions, enhancing user engagement and interactivity.
- Developed a fully responsive design with lazy loading and optimized media rendering, improving performance across mobile, tablet, and desktop devices.

CodeNova | (React.js | Node.js | Express.js | MongoDB | JWT | Python) | (LIVE | Github)

- Developed a secure online code execution platform using React.js and Node.js, integrating Monaco Editor for real-time syntax highlighting and interactive coding experience.
- Designed a sandboxed execution engine using Docker containers, enabling safe code execution with resource limits, timeout handling, and protection against malicious scripts.
- Implemented scalable backend APIs for code execution, snippet storage, and execution history, ensuring efficient processing and improved system reliability.

SKILLS

Programming Languages	Python, C++, R, SQL, JavaScript
Web Development	Node.js, React.js, Express.js, Tailwind CSS, REST APIs
Tools & Technologies	MySQL, PostgreSQL, MongoDB
CS Fundamentals	Data-Structures and Algorithms (DSA), OS, DBMS, CN, OOPs

ACHIEVEMENTS

- 250+** questions on [LeetCode](#)
- GitHub Profile** [View](#)
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate** [View](#)
- TCS ION Career Edge - Young Professional** [View](#)
